

Entry Standards and Exemptions

Certain minimum educational standards are required for entry and you must provide evidence that you have obtained the following:

1. Passed in five subjects in Hong Kong Certificate of Education Examination (HKCEE) or
2. Other academic qualifications as considered by the Committee as equivalent to HKCEE or above.

However, if you are aged over 21 by the date of the examination, with at least two years of working experience and are employed or engaged full time in insurance, you do not need to provide any evidence of academic qualifications to register. Proof of age and working experience are required instead.

Exemptions

Exemptions can be awarded by the Committee if the subject in question has been considered as having substantially covered by a specific external qualification offered by a particular awarding body and has been directly assessed using a standard comparable with those applied to this examination. The Committee shall not award exemption to any one student for more than **seven subjects** in Associateship and **two subjects** in Fellowship.

There is a wide range of awarding bodies for which exemption awards will be considered, such as CII, ANZIIF, LOMA, FSDC, IIHK etc. If you have a qualification, which you consider might provide the basis for an exemption, you can apply together with all supporting documents. Before granting a particular exemption, the Committee may ask for more information.

No exemption will be granted to any subject which you have previously sat and failed in this examination.

Applicants will be informed of exemptions granted in writing. The Committee's decision will be final. No explanation will be given in case of rejection.
